

# foXL . . . introducing V2

*The world's only audio-purist pocket-sized portable speaker just got better!*

**MODELS** – **foXLv2** and **foXLv2 Bluetooth** – they are identical to each other except for addition of hands-free microphones and Bluetooth on more expensive version.

**LOOKS** – **Identical to the original foXL**, (differentiated only by a # “2” on the bottom right of the back model ID label)

**PRICE** – **NOW THE BEST IS MORE AFFORDABLE** –

**foXL V2 Bluetooth \$199 MAP** (\$50 less than foXLmb)

**foXL V2 (no-Bluetooth/mics) \$169 MAP** (\$30 less than foXL)

**AVAILABILITY** – **Order now** for mid-December delivery

**IMPROVED BLUETOOTH** – foXL’s new Bluetooth circuitry provides **3x the previous range, dramatically lower distortion and noise– sounds amazing with an iPhone!** Unlike its predecessor, the V2 now **automatically pairs/searches** for a Bluetooth partner device and **you can now answer + terminate calls from the speaker.**

**PLAYS LOUDER** – While still designed for personal listening, when battery powered the foXL V2 provides **up to 3dB more output** than the original foXL. New anti-“dance” acoustic mat keeps v2 in place.

**SOUNDS EVEN BETTER** – Nuanced improvements to the foXL’s patented “Twoofers” provide for **smoother deeper bass, even more “open & airy”** listening experience.

**PLAYS & CHARGES ANYWHERE** – Along with it’s patented re-chargeable built-in woofer/battery (good up to 5 hours of play, foXL V2 comes with a universal AC power charger and **four plug-in travel adapters** (US/Japan, Europe/China, UK/HK, and Australia/NZ) ... plus USB cable for slow charging via computer.
